

Say, "No" to DeStefano.

Say "No ID's" for Illegals.

Like President Bush says, 'Let's bring thousands of illegals into New Haven for jobs Americans don't want.'

Mayor John DeStefano

Illegal Aliens

- **Steal American Jobs**
- **Drive Down American Wages**
- **Crowd American Schools**

"Needless to say, as manufacturing and industrial jobs decline, the competition for the other jobs becomes more intense and when this happens African-Americans always lose for a variety of reasons. These reasons range from stereotypes about race to a preference for more vulnerable workers for whom the threat of deportation can be held over their heads.

Do not misread me. I am not posing a causal relationship. Immigrants, neither legal nor illegal, did not bring about the state of Black America. Yet the patience of African-Americans wears thin when America welcomes and provides immigrants in this century as it did in the last, a better opportunity to achieve the American dream than it provides for African-Americans."

You Don't Speak for Me!

American Hispanic Voices Speaking Out Against Illegal Immigration.

1. All immigration should be legal

Illegal immigration hurts everyone, while carefully planned legal immigration helps. We believe in stopping illegal immigration and securing the national and economic future of our nation.

2. Illegal aliens from any country should never be rewarded with benefits or privileges

Becoming an American citizen is a unique and wonderful privilege. The legal route to becoming a citizen is not easy and requires patience and hard work. Those who break the law and come illegally should not be granted any benefits or privileges. No driver's license, no welfare benefits, no free health care, no in-state tuition - simply put . . . no state or federal benefits!

3. No amnesty - no way!

Amnesty is rewarding people who break the law. From past experience we have learned that granting amnesty only leads to increased illegal immigration. Those here illegally are taking advantage of our compassion. We say No Amnesty-No Way!

4. Secure our borders now and fully enforce immigration laws

The best way to stop the flow of illegal immigration coming across our borders is to build a high security fence along the length of our southern border where the majority of illegal traffic takes place. We must also vigorously enforce our existing immigration laws.
