

Nov. 7, 2009

ON October , 2009, two Individuals from Lisa Hopkins' campaign knocked on my door and asked if my absentee ballot came in the mail. They told me that other residents have received theirs, and mine should've come. I informed them that I have not received it and they said that they will come back. When I went to check my mail later in the day, the ballot did come and those same people from her campaign came and asked me to sign the ballot. After I signed the ballot and left it unsealed, they took it and left. I later found out that one of the people that was at my door was indeed Lisa Hopkins
